Asia-Pacific Region Webinar

“Update on Reproductive Toxicologic Pathology”

Co-sponsored by IFSTP & IATP

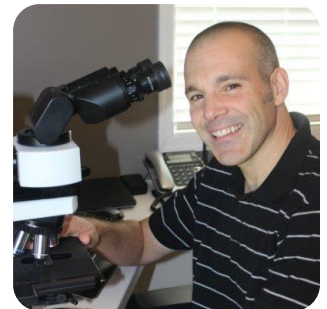

This live webinar will provide toxicologic pathologist throughout the Asia-Pacific region with a current issues update on the design of general toxicology studies specific to the interpretation of reproductive pathology findings from two highly-regarded experts. Justin Vidal will discuss evaluation of the male reproductive system in nonhuman primates focusing on the determination of sexual maturity and common spontaneous findings. Karen Regan will describe how to recognize early senescent changes in female rodents. This event will conclude with a live discussion between the speakers and answer questions from the online audience.

Speakers:

Karen Regan
President
Regan Path/Tox Services, Inc.
Ashland, Ohio

Justin Vidal
